## CO2 Sensor For Hydro X (MBS S8) CO2 Sensor TrolMaster

**Brand:** TrolMaster

**Price:** €282.83

**Reference:** LXXG607

### Short description

CO2 Sensor For Hydro X (MBS S8) CO2 Sensor by TrolMaster is designed to monitor CO2 levels in controlled environments. It is compatible with the Hydro-X controller and offers accurate readings. It includes a 16-foot RJ12 cable and an RJ12 T-splitter. The output voltage ranges from 0 to 11.5V. It operates within a temperature range of 0 to 50 degrees Celsius and handles humidity up to 90%. This sensor is ideal for optimizing plant growth.
